Elephants

Elephants are some of the largest and smartest animals on Earth. There are two types of elephants: Asian and African.	10
Asian elephants are found in the forests of India and Southeast Asia. They are often caught and trained to help people do heavy work. People use them to clear forests and tow heavy logs. The elephants' handlers often become good friends with the elephants.	20
Most African elephants live in preserves where they are protected from hunters. Preserves also help keep them from damaging crops and fields. African elephants have very large ears that they flap to scare off other animals or to keep cool. They have long ivory tusks.	31
Both kinds of elephants have very long trunks. They use their trunks to reach down to the ground and high into trees to find food. Plants and leaves and small branches from trees are their favorite foods. The trunk is also used for drinking, smelling, and greeting other elephants. Sometimes they even use their trunk like a snorkel in deep water. Elephants like to raise their trunks full of water and give themselves a shower.	43
Most people only see elephants in zoos or circuses. Sometimes they have learned to do tricks like standing on their hind legs or hooking their trunks around another elephant's tail. Someday I'd like to see some elephants in the wild.	55

DIBELS® Oral Reading Fluency

Short Form Directions

Make sure you have reviewed the long form of the directions in the *DIBELS Administration and Scoring Guide* and have them available. Say these specific directions to the student:

Please read this (point) out loud. If you get stuck, I will tell you the word so you can keep reading. When I say "Stop," I may ask you to tell me about what you read, so do your best reading. Start here (point to the first word of the passage). Begin.

Start your stopwatch when the student says the first word of the passage.

At the end of **1 minute**, place a bracket (**]**) after the last word provided by the student, stop and reset the stopwatch, and say, **"Stop."** (remove the passage)
